Professional Summary

Full-Stack Developer skilled in Java, Spring Boot, React, Node.js, Python, and AI-powered automation, with experience building scalable web applications and problem-driven platforms. Strong background in backend systems, APIs, Generative AI, and workflow automation with hands-on project experience across finance, analytics, and career guidance domains. Achievements include 3rd place at Innovate'26 Hackathon, Top 75 in Smart India Hackathon, and active open-source contributions through GSSoC and Hacktoberfest.

Education

B.Tech - Computer Science Engineering (Core)

Current CGPA: 8.33/10

Vellore Institute of Technology, Bhopal

Class XII

81%

Jim Corbett Public School, Agra

Class X

89%

St. George's College, Agra

Projects

NeuroRead

[GitHub](#)

An AI-powered Chrome extension focused on smarter reading, accessibility, OCR, research assistance, and productivity

Technologies: JavaScript, Node.js, Chrome Extension APIs, Gemini API, Tavily API, Tesseract.js, HTML, CSS

FinanceX

[GitHub](#)

Built a finance-focused platform integrating live financial news, custom calculators, comparisons, and AI-powered assistance for financial literacy and decision-making.

Technologies: HTML, CSS, JavaScript, React.js, APIs

MerchandiseStore

[GitHub](#)

Built a responsive full-stack ecommerce platform with authentication, real-time database integration, and interactive 3D UI components.

Technologies: React.js, Vite, Tailwind CSS, Framer Motion, Three.js, Firebase Authentication, Firebase Firestore, Zustand

CCRM

[GitHub](#)

Console-based Java application to manage students, courses, enrollments, grades, and transcripts for academics

Technologies: Java SE, Collections Framework, Exception Handling, Functional Programming

Technical Skills and Interests

Languages: Java, Python, C++, JavaScript

Frontend: HTML, CSS, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Spring Boot

Databases: MySQL, MongoDB, Firebase Firestore

Tools & Platforms: Git, GitHub, VS Code, Firebase, Figma, Postman

Core Concepts: OOP, DBMS, REST APIs, Data Structures & Algorithms

AI & Automation: Generative AI, Prompt Engineering, Workflow Automation, n8n, API Integration

Cloud & Others: Cloud Computing, OpenCV, Chrome Extension Development

Soft Skills: Leadership, Communication, Problem Solving, Team Collaboration

Experience

Campus Ambassador

May 2026 – July 2026

[GirlScript Summer of Code \(GSSoC\)](#)

Remote, India

Campus Ambassador

June 2025 – Oct 2025

[GirlScript Summer of Code \(GSSoC\)](#)

Remote, India

Open Source Developer

Oct 2024 – Nov 2024

[GirlScript Summer of Code \(GSSoC\)](#)

Remote, India

Certifications

NPTEL Cloud Computing and Marketing Analytics - IIT Kharagpur
Database for Developers - Oracle
Career Essentials in Software Development - Microsoft & LinkedIn
Career Essentials in Generative AI - Microsoft & LinkedIn

Java Programming - Infosys Springboard
MATLAB Onramp - MathWorks
Python Development - Udemy
REST API Development with Node.js - Udemy
React.js Web Development - Udemy
OpenCV Introduction - Simplilearn
Figma UI/UX Design - Udemy
HackerRank Certifications - JavaScript, CSS

Achievements

Secured **3rd Place** at **Innovate'26 Hackathon** for developing an innovative problem-solving solution under competitive time constraints.

Ranked among the **Top 75 teams out of 950+** in the **Smart India Hackathon (SIH) 2025** internal round at VIT Bhopal.

Actively contributed to open-source programs including **GirlScript Summer of Code (GSSoC)** and **Hacktoberfest**.

Completed industry-recognized certifications from **IIT Kharagpur, Oracle, Microsoft, Infosys, MathWorks, and HackerRank** in Cloud Computing, Databases, Software Development, AI, and Programming.

Built multiple full-stack and AI-powered projects across domains including finance, automation, productivity, career guidance, and analytics platforms.

Leadership & Activities

Led cross-functional teams through multiple competitive hackathons including **CodeVerse, Innovate'26, Health Hackathon, State-Level Buildathon, and Hackingly**.

Served as a **Campus Ambassador at GirlScript Summer of Code (GSSoC)**, promoting community engagement and open-source participation.

Explored AI workflow automation using **Generative AI tools, APIs, and n8n** for building scalable automation systems and productivity solutions.

Continuously learning and building in areas including **Full-Stack Development, AI Automation, Backend Systems, and Cloud Computing**.
